

Senior Health Information Analyst

Consider this challenging opportunity to use your strong information data analysis skills to provide analytical and interpretive expertise for projects and information requests.

You will:

- develop and implement analytical methodology, indicators and statistical applications for the analysis and interpretation of health records and data
- design complex integrated data retrievals and maintain or enhance information in computer systems
- prepare a range of knowledge products including summary files, tables, reports and other data-related products
- identify, analyze and resolve issues related to the use and interpretation of relevant data and measures
- contribute to service planning and delivery activities and provide statistical expertise to clients

Location: 5700 Yonge Street, North York, Ontario

What we are looking for:

Knowledge:

- you have knowledge of statistical and research methods (e.g. statistical modeling, complex survey analysis, regression techniques) to develop and implement analytical methodology, indicators and statistical applications
- you have knowledge in mathematical and statistical procedures, information theory and application programming
- you understand the concepts, methods and measures related to population health, health service utilization, health economics and health human resources

Computer Skills:

- you can use MS Word and Excel and analytical applications to perform data analysis and prepare findings, reports and presentations

Analytical, Research and Problem-Solving Skills:

- you can analyze and interpret health records and data and forecast future patterns and trends in health status and health-related behaviours
- you can identify and resolve data quality issues

Communication, Interpersonal, Presentation and Time Management Skills:

- you can provide health data expertise and present project findings
- you can prepare summary files, tables and other data-related products
- you can prioritize and manage conflicting priorities and meet clients' needs

Salary range: \$1,406.37 – \$1,784.96 per week
