

Health Records Professionals,

The Data Quality Task Force Committee of Southwestern Ontario would like to take this opportunity to invite you to the first Coding Quality Task Force Workshop. This session will concentrate mainly on Diabetes.

Please find attached our agenda for the half day session. The Speakers will include Dr. Ruth McManus, an Endocrinologist from London, a volunteer from the Canadian Diabetes Association and a representative from OHIMA.

We have also attached the inpatient chart that we will be reviewing at the Workshop. We ask that you code both the Inpatient portion and the NACRS portion of the chart and submit only one set of codes per facility. Please also include the diagnoses typing with your codes.

Your codes and typing can be emailed to [Alison.temple@tillsonburghospital.on.ca](mailto:Alison.temple@tillsonburghospital.on.ca)  
Please also let us know how many from your facility that will be attending the Workshop. If it does not work out this time for your facility to attend the Workshop, please feel free to submit your coding selections to the Committee and we will follow up to you with a post Workshop summary.

Let's all work together and strive for Optimal Data Quality amongst us Health Records Professionals. All Health Records Professionals are welcome so please feel free to forward this information to anyone not on the list.

We look forward to seeing you on Monday, November 1, 2004.

Coding Quality Task Force Committee
